

CANADIAN OILSEED PROCESSORS ASSOCIATION

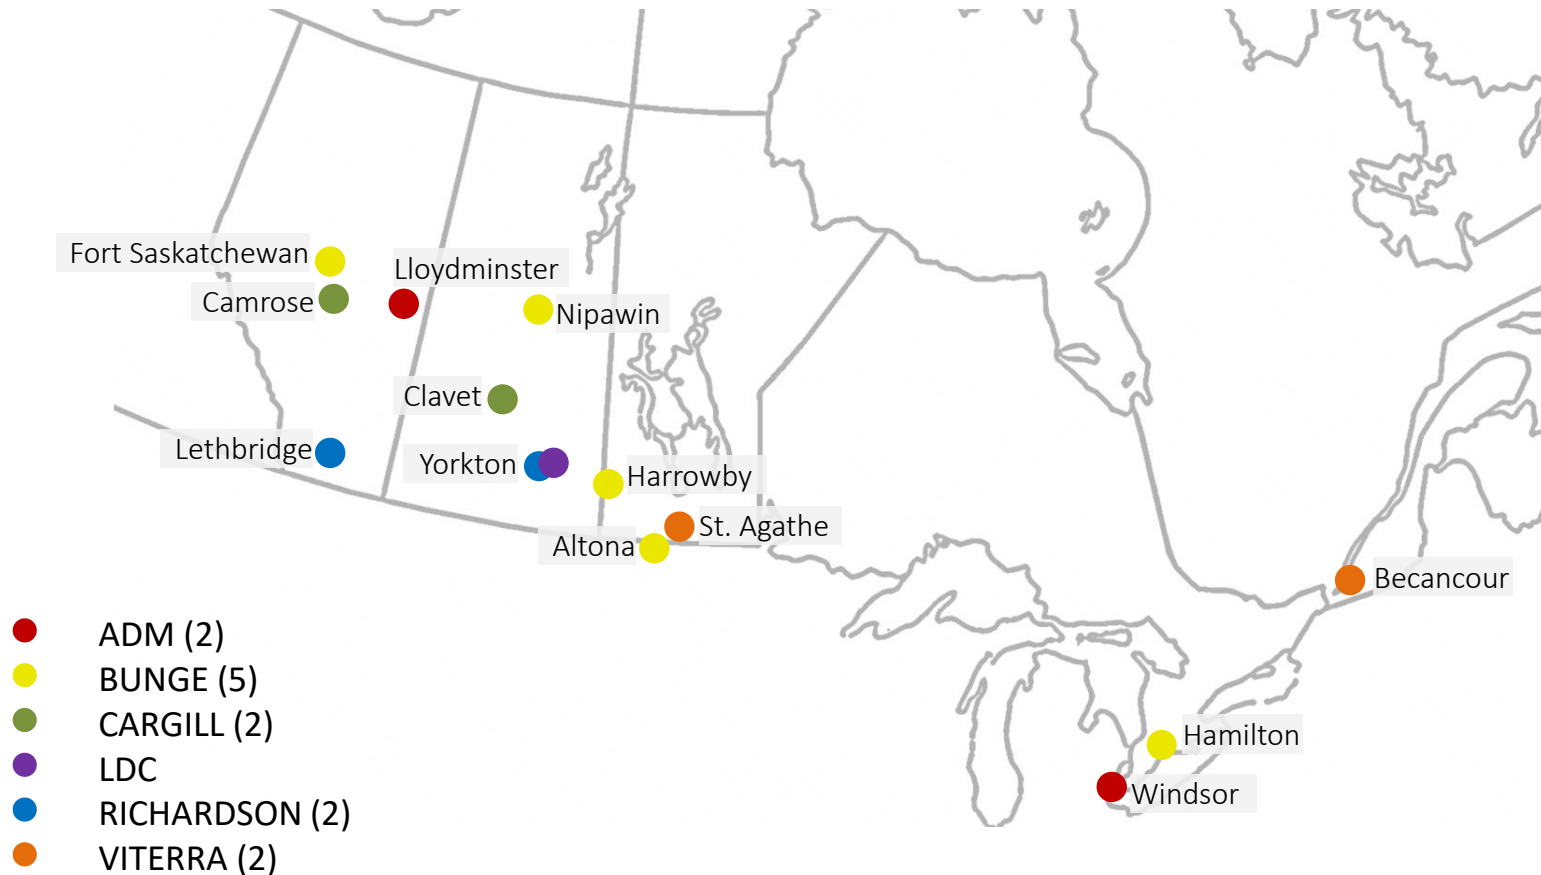

# Overview of Canada's Oilseed Processing Sector

October 2018

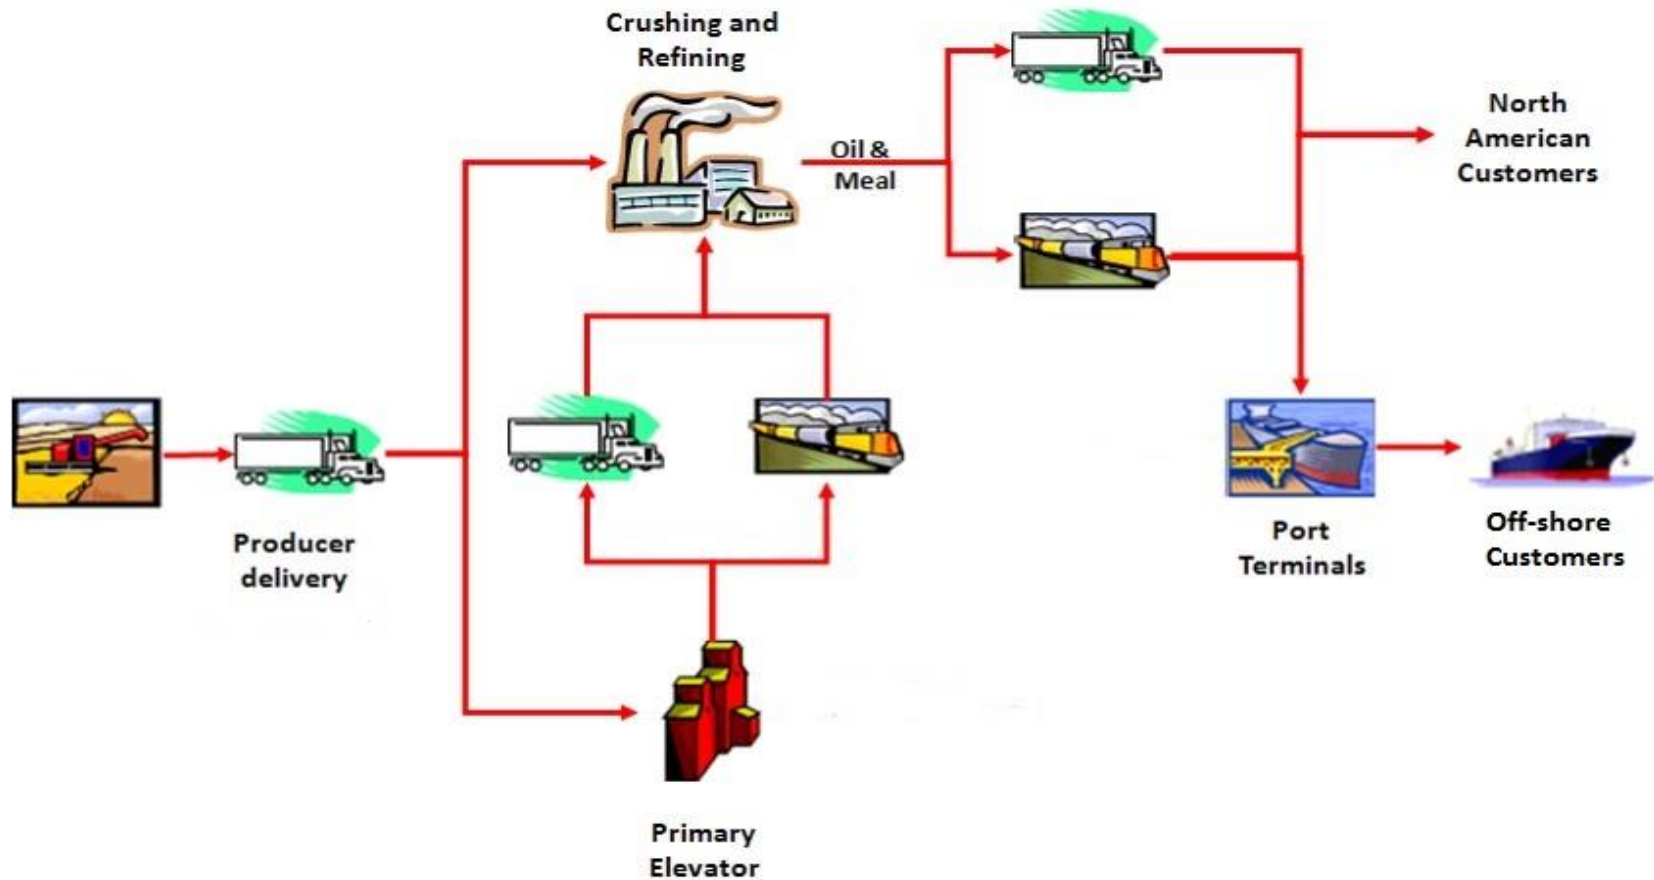

# Canadian Oilseed Processors Association

COPA is a federally incorporated non-profit industry association that represents the oilseed processors in Canada.

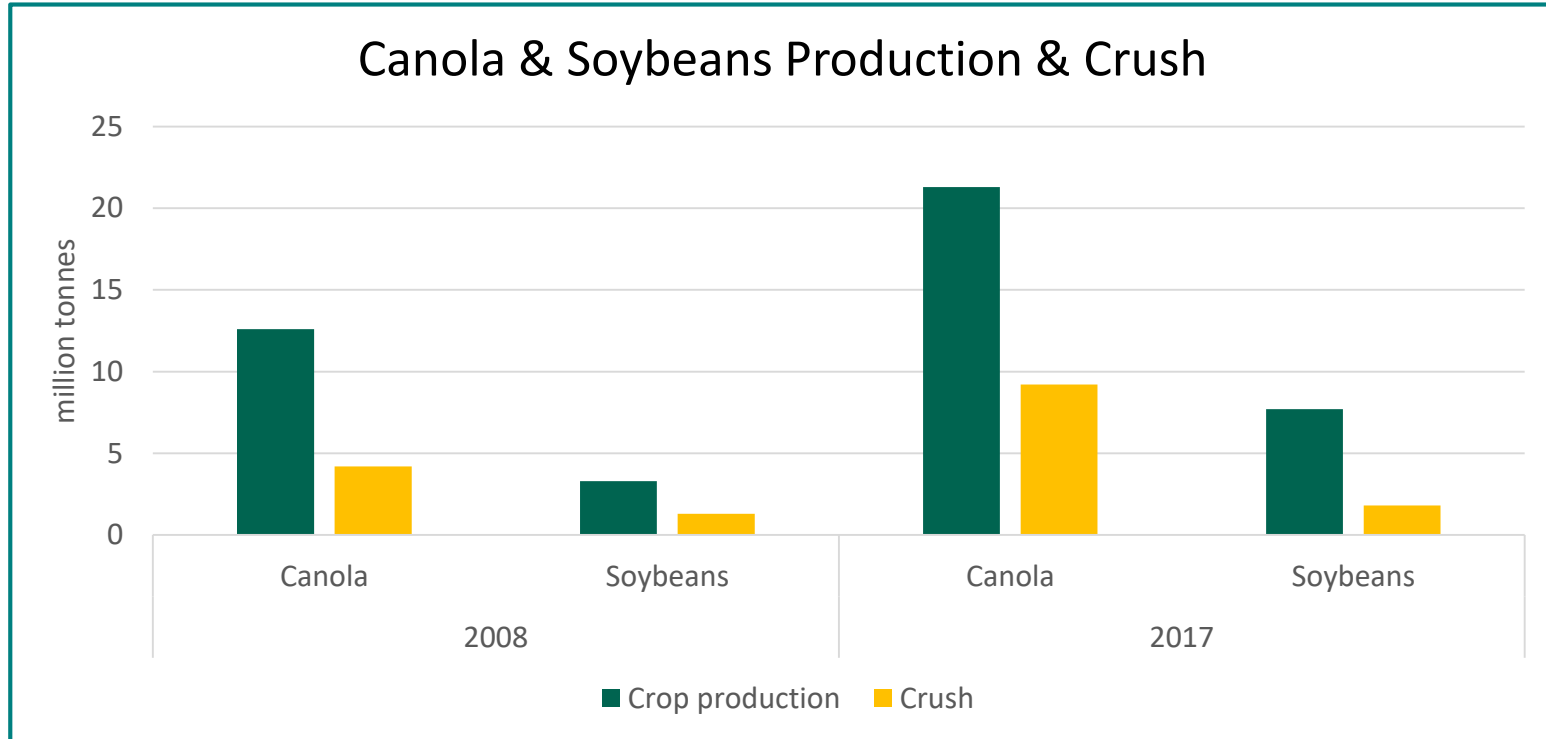

There are 14 crush facilities owned by 6 companies in Canada; the western plants crush canola and the eastern plants crush canola and soybeans

# Our Value Chain

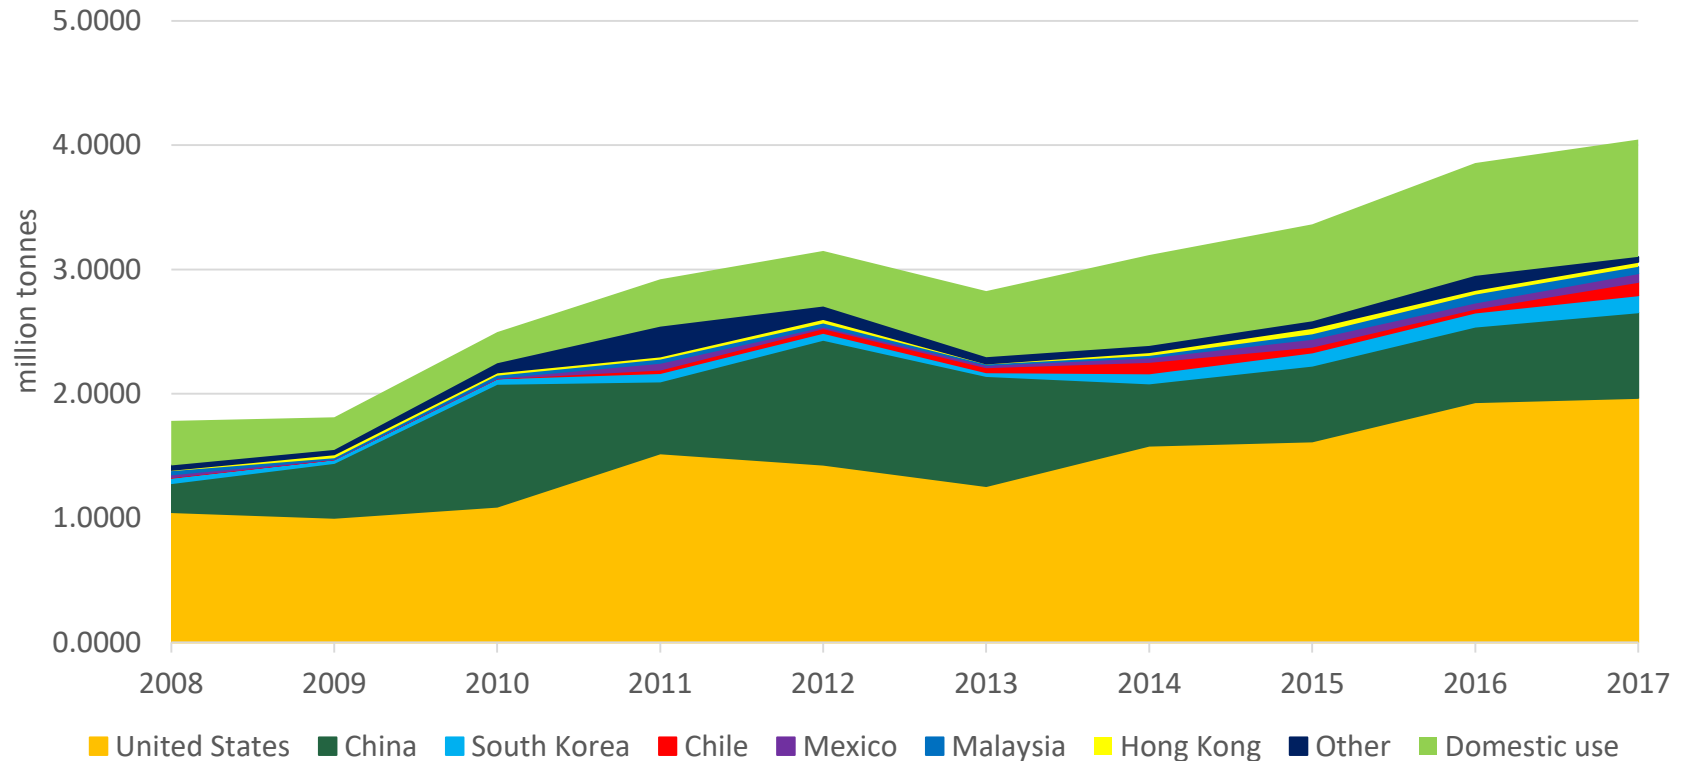

# Size and Growth of the Oilseed Processing Industry

- Over the 10 year period 2008 to 2017, canola production grew by nearly 70% and soybean production more than doubled
- Canola crushings rose by 119%, while soybean crushings rose by 38%
- In 2017, 43% of Canada's canola crop and 23% of soybeans were processed domestically

# Domestic Canola Oil Consumption & Exports

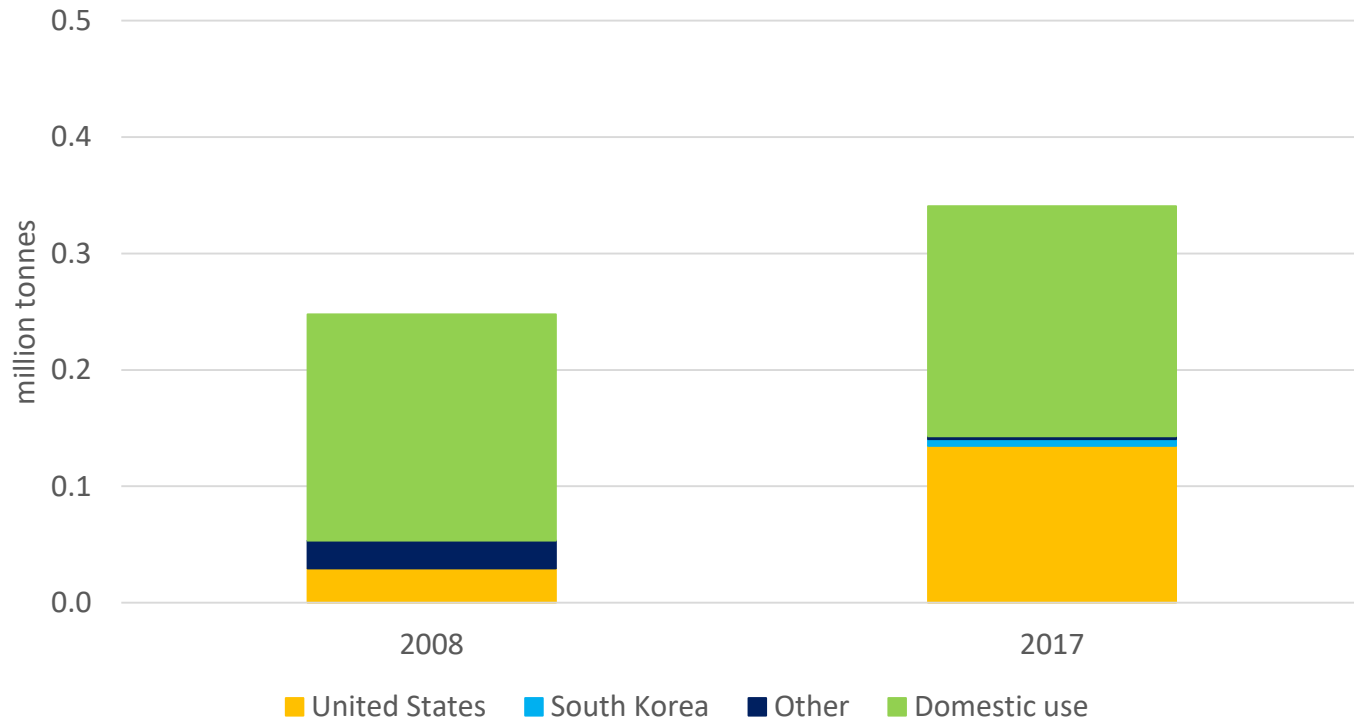

In 2017, 23% or 940 thousand tonnes of canola oil were used domestically and 77% or 3.1 million tonnes were exported; US accounted for 63% of total exports, China 22%, South Korea 4%, Chile 3%, and Malaysia and Mexico 2% each

# Domestic Canola Meal Consumption & Exports

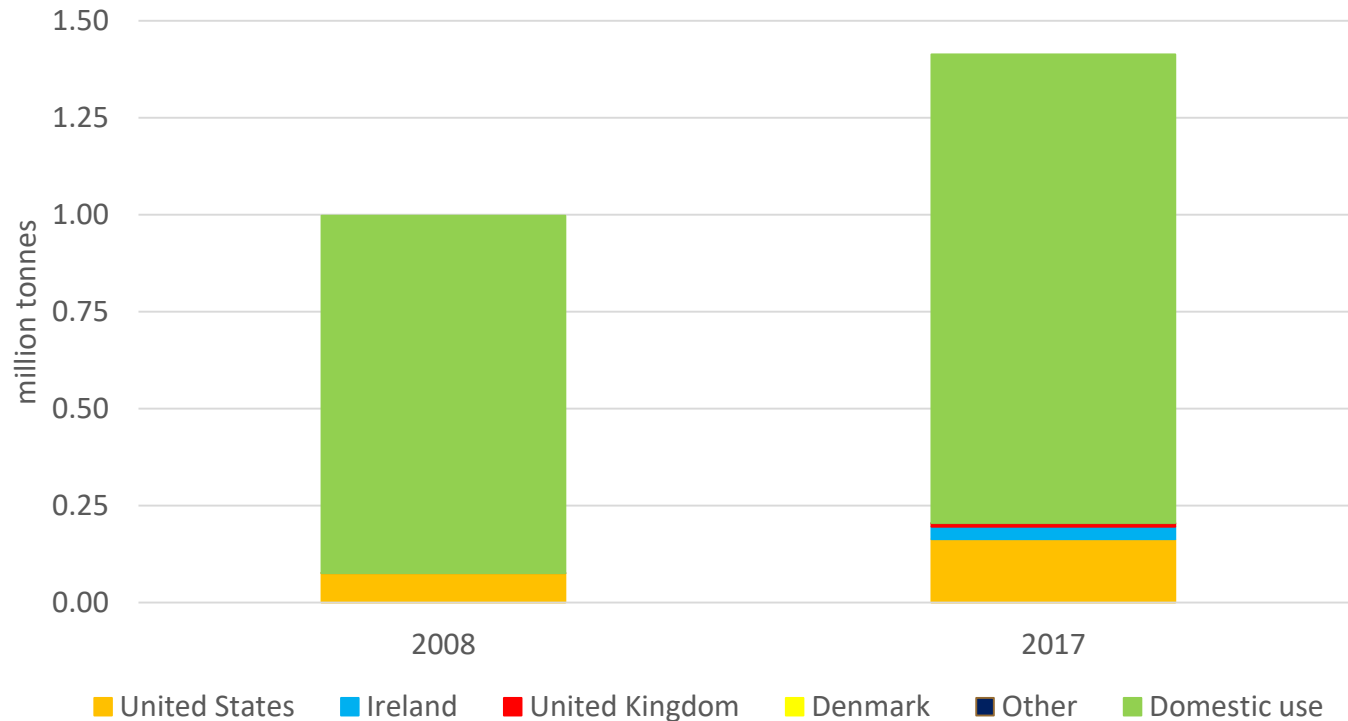

In 2017, 11% or 559 thousand tonnes of canola meal were used domestically and 89% or 4.6 million tonnes were exported; US accounted for 75% of total exports, China 23%, Thailand 1% and Mexico 1%

# Domestic Soybean Oil Consumption & Exports

In 2017, 58% or 198 thousand tonnes of soy oil were used domestically and 42% or 143 thousand tonnes were exported; US accounted for 94% of total exports, and South Korea 4%

# Domestic Soybean Meal Consumption & Exports

In 2017, 85% or 1.4 million tonnes of soy meal were used domestically and 15% or 206 thousand tonnes were exported; US accounted for 79% of total exports, Ireland 16%, and UK 4%

---

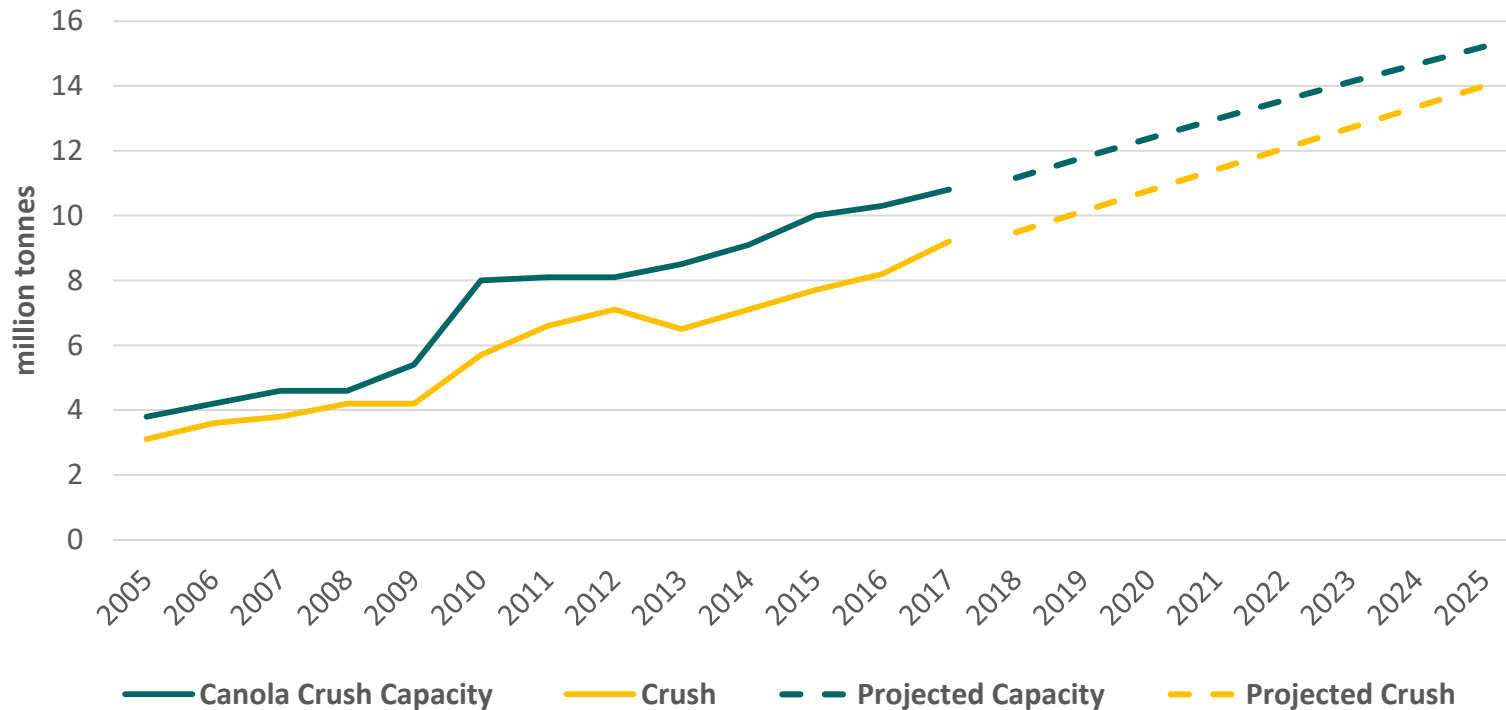

# Value-added of the Industry

- It is estimated that processing canola and soybeans in Canada is now responsible for \$7.8 billion in economic activity every year, a threefold increase from a decade ago.
- About 10,000 Canadian jobs are directly and indirectly attributed to the crushing, refining, and delivery of canola meal and oil.
- Consistent with the significant growth of oilseed production in recent years, the processing sector has invested substantially to increase Canadian processing capacity.
- Over the last decade, approximately \$2 billion have been invested in plant construction; crush capacity has more than doubled, reaching a new high of 10.7 million tonnes for canola and 3.2 million tonnes for soybeans in 2016.

# Growth and Strategic Plan

- Since 2005 crush capacity and crush volumes have nearly tripled.
- This is indicative of the industry's commitment to add value in Canada.

## Canola Crush & Crush Capacities: Historical and Forecast

# Canada's Canola Processing Industry

## The Future

*"Keep it Coming"*

	Target 2006	Target 2013	Actual 2017	Projected 2025*
Production	9.1	18.0	21.3	26.0
Seed Exported	5.2	8.5	11.6	12.0
Processing (domestic crush)	3.7	7.5	9.2	14.0
Canola Oil Production	1.55	3.3	4.0	6.3
Canola Meal Production	2.15	4.2	5.1	7.7

Values expressed in million tonnes
